

Washington Death with Dignity Act

As a *LifeCare*[™] senior living community, Timber Ridge falls under the provision of the Act. Because of the ramifications of this law, the leadership of Timber Ridge is engaging in careful and thoughtful discussions to determine whether to participate in the Death with Dignity Act. Since we have not yet established policies or procedures, at this time we must decline to participate in the Death with Dignity Act. Any resident wishing to receive life-ending medication while a resident at Timber Ridge will be assisted in transferring to a participating community of the resident's choice.
